The Savior Of Souls Has HIV -- Yeah --- The Peacebuilder to the World Has HIV --- Yeah

They and We are worthy of a life free of haters --- but you all are belligerent to your greed and hate.

On Twitter, a Tweet Thread to the Attention of Dr. Jono [ first name here ] is simple and sweet and does not even mention FAP.

<https://twitter.com/Gruwup/status/1083283681605632001>

and the key INTERVENTION EXPRESSED HERE IN THESE CIRCUMSTANCES.

The world of people in high places are finally listening to us on this end, even though you won't see the hell fires that are at your doorstep for what you have done and continue to be on the path that you are on.

The reason why this connection here is being done here for FAP?

A conflict of interest with James Driskill's care at @BorregoHealth and he will not concede to hold playing this game. Mr. Michael Ray Maynard forwarded this referral into the client's path, and in that action places him interweaved to be holding moral agency and moral responsibility.

Michael Ray Maynard is the morally responsible one.

You cannot say that digital space and objects do not compute.  
It is alive and well servicing the truth.

So does this object of relation serve to identify the reasons why.

He is following the words that are written in an article on WikiWorld called IAmAnAsshole, You have crossed paths with your savior of circumstances, even if that is beyond your human reach of humility.

## IamAnAsshole

When people don't agree with me I think they are not listening. I get pissed off and start shouting. You can't enslave me to live your idea of [TheGoodLife](#), I would die first==== You've made up your mind and don't want to be confused by the facts. And I start feeling sorry for myself. Nobody is interested in Truth except me. Everybody else just wants to be right when to learn you must find you are wrong, why can't they [GetIt!](#) It's impossible to tell someone something they don't already know because they won't have the slightest idea what you are talking about. ====

I went to live in the abandoned mines of aspen mountain as a hermit in 1969 because I thought communication with other human beings was not possible. I thought all the people living ticky tacky lifes in ticky tacky houses offered no real value. I was concerned that my profession, computer science, would be used for evil by the powerful to dehumanize people. After three weeks I realized that everything that was really important to me involved other people. Even a mountains beauty, boy would so-and-so dig that, all my joy and will involed other people. I layed by spring creek in taylor national forest for hours content to be absorbed into the mountain. I had nothing to live for.

I realized that if I chose to live, I'd have to march back to Aspen and become a part of humanity. I savored the bliss I felt laying by the rushing stream for a while longer and then bagan the march back to civilization.

I decided that the best thing to do with my computer knowlege was to use it for humanity. If you can't beat them, join them. I hoped I could help put the power of the computer in the hands of the people. (I am satisfied I've done my part with EIES, WWW and teaching.) I decided to test my hypothesis about human uselessness. Every time I met someone who seems useless to me, I stoped my travels, I got to know them better, and asked questions like, what is really importnt, or what would you rather be doing. In most cases, within minutes they would teach me something important. I began to realize that other people were cool, I was the jerk.

But 25 years later I still cannot communicate with anyone and here I am trying to actualize a [CollectiveIntelligence](#). How stupid could I be? In well over a decade of teaching objects about 4 of my students really [GetIt](#). Chances are they got it before they started my class. (At least they all learned to write [SmallTalk](#) code more or less.) I have no bases to presume I can communicate anything meaningful to anybody. Nobody understands my [InformationPhysics](#) (except wheeler maybe), nobody understands the urgency or relevance of my [DeclarationOfInterdependence](#). I may be a bad teacher but I have 5 children that have to live in this world WE are preparing for them, my mind is open, and God help us, can't we agree on anything=====

[StarPilot](#) is right, it is hopeless. But I will never give up. I will try and try again and hopefully learn from my failures. Hopefully I can stop abusing visitors to my web site at least... I am a [LegendInMyOwnMind](#).

Well, If you go back in evolution, all higher life evolved from colonies of cells that collaborated to form rings that extended into little worms that took one kind of shit and passed it though the collective extracting nutrients and passing through another kind of shit, effectively an asshole===== We are descended from assholes so it should be no suprise that we are all assholes. =====

Most everybody is selective about their friendships. They choose not to befriend at least 2 out of 3 people they meet. Now if they didn't think they were assholes, they would befriend them, no? Of course they would.. Well, it varies of course, some nice people only call people jerks that call them jerks. Some like everybody but the sand niggers. And for others, just about everybody is a asshole. In any case if on the average the jerk ratio is 2/3 of the rest of the people in the world, than by popular vote, we are all assholes.

Where to go after Friday, January 18th, 2019 is a secret.

It is apparent that the keepers of the crypt of hate will not bend or break this conspiracy exposed -- they are thinking, acting, and living this conspiracy so natural are they in this state of mind, they can't see their own insanity.

they are acting as untouchables because of political clout. In such, the hate that is in our society has gone run-a-muck.

I am a person that will not bend or break my knowing what is right and wrong.

That is because I have to a degree that must be most, an augmented sense conscience. It is not hard to know that I am confirmed my reasoning, by looking for digital tracking of the same things. In this case, it is confirmed,

It is them at fault and it is not me. I refuse to play this game that most just dismiss as the way it is. NO, we are better than this. I deserve better than this.

If we all can't see the truth, and get along to fix the problem that is exposed.

Then FUCK YOU.

I refuse to play your nonsense game. It sucks to be me --- and it will suck to be free.

Free of the haters that will not stop hating on me. They come out of the woodwork every aspect of life, because I am HIV and deserve fire and brimstone.

I have been dealing with this for over 10 years --- no one to commit to fixing this..

you are all haters --- you allow haters to be the winners --- and you are the winners --- you are the haters.

This equation is absolute.

I lose -- so I will go someplace -- even if that is not in the country --- or it is a cave all by myself to be free of the haters --- that will be there --- I promise you --- to hate me till I commit suicide.

The memeplex that is alive and working to erode my sense of trust in our society is so obvious to me --- a conspiracy. It is what drives the information world to note this review. There are more to confirm this review is true. They the world of social services in a whole has contempt for us they are fooling us and the public they are supporting us. They are not, they be creeps.

We need an intervention from the outside of real supportive function -- the social services network is under the protection of #GovernmentSponsoredHate and that is an absolute truth.

This agency is FRAUDULANT in its services and practices when it comes to serving the HIV population and utilizing Ryan White Funding. My recommendation for any HIV client interested in signing with them is to run as far and as fast as you can...they treat HIV consumers with contempt and unprofessionalism.

Pros

**Things have become very bad here.**

Cons

**A true lack of care for the Aids patients new to the area. Denial of medical is frequent for many unqualified reasons.**

I AGREE --- START OVER WITH A FRESH PERSPECTIVE --- START OVER WITH A FRESH COLLECTIVE RYAN WHITE CARE ACT FUND FUND --> A --> MENTAL MORAL AGENCY OF SOCIAL SERVICES AGENCIES. MENTALLY WE ARE BREAKING!

As it is shown above in this correspondence to FAP thread, the Cascade Aids Project Glassdoor Review's moral agency of moral responsibility -- the ownership of it in that aspect -- has been granted to this network by Glassdoor by the title of the email that I received. That is no accidental slip of a person typing --- The discussion of that email conversation goes to the aspect of why the review was deleted and contacting the original author of that review to confirm or re-affirm the positions made it in. There was a flag placed by the haters of you all and the review was placed into a status of verification by Glassdoor. In that the author did not respond to that calling reaffirmed view, it had to be removed, In this public statement here, I am calling for the original author of "Disappointment and Mendacity" of a Glassdoor review for Cascade Aids Project that is showing her below to please contact Glassdoor --- it is imperatively important that this review is reaffirmed from your position and returned to live status. In that degree, it is placed within my ownership by the title of the subject of email holding moral agency upon me to continue to distribute its message.

Former Employee - Not Safe to Disclose in Portland, OR

Doesn't Recommend Negative Outlook Disapproves of CEO

I worked at Cascade AIDS Project full-time (More than a year)

**Pros**  
The community members living with HIV are some of the most dynamic and resilient people you may ever meet. Working with those who are still suffering profoundly impacts you deeply and personally. CAP has a mostly young vibe and the work is interesting due to its complex nature. Downtown location is convenient.

**Cons**  
Management is hostile to the union represented staff. The organization only works with a narrow part of the community yet markets something different to look more comprehensive than it is. Much of upper management is threatened by change, is

Google Cache Spoken Voice  
Web Archived Text Narrative

conflict avoidant to the point of dysfunction and is retaliatory when confronted. Often, people with poor skills are promoted to leadership and this creates frustration and a sense of unfairness highlighting backroom agreements meant to undermine. Morale is dreadful. In the past few years most staff have been fired, pressured to leave, or asked to work with compromised ethics. Gay, black, HIV+, and trans identified staff have been systematically marginalized. CAP treated HIV+ staff as second class citizens, ignored client request for change, and silences critics. If you go against CAP, even if justified, you will find it hard to work in the HIV community in Portland. The board is completely distant from the staff and the clients being served, and act condescending and unhelpful. You would think if 50% of the staff leave in a few months time, it might be a wake up call that there are big problems that can't be dismissed as "disgruntled" staff. Since CAP is the only game in town for HIV related needs, they have no checks and balances and no accountability when they injure the community they are claiming they serve.

**Advice to Management**

Stop displaying images and raising money through deception. Admit you do not serve the community at large and close your doors. CAP is not about HIV anymore, it's about retaining jobs and keeping people working at the expense of programing and directives that empower. If you want to be a LGBTQ health center then so be it, but do not pretend you are helping people living with HIV, because you are not. You are only focusing on addicts and the mentally ill. Also, an LGBTQ health group or HIV group with no gay or HIV+ leaders, or people of color managing direct services means you will be just like any other colonized public health care model that delivers incompetent care. The community does not need public health zombies, we have them already. We also do not need tokenized minorities to cover for the heteronormative, white, middle class faux professionalism that is the root of the HIV pandemic to begin with, and abundantly present in CAP management's ranks. There is a big problem when the public adores you and your clients and the community you claim to serve would rather go without than be at the mercy of a place they distrust and dislike.

These are the digital footprints that define and confirm there is a conspiracy involved here to keep a secret hidden agenda away from the public's full knowledge -- that be the case -- not all the Ryan White Care Act agencies in 100% coverage are in on this process. I am sure there are some really good intended persons who really believe in the cause of saving and offering persons with HIV life, liberty, and the pursuit of happiness.

But for the ones who are operating from this aspect of a hidden agenda conspiracy, it will take the courage of employees to step forward and report the conditions that are working under their agencies roof. It takes courage to challenge hate at this level. They are politically protected, it is obvious. Retaliation and hate is their tool to hold a secret to its ongoing secret activity. This is causing a problem in #SocialTrust that is a known fact and verified to be offered to the American People by the Washington Post Article that appeared in October 2017.

If this conspiracy is not broken --- this country is doomed.

Thus the reasoning to prefix these URLs in namespace meme as Hells Bells. You fools!

**Pros**  
Brand new facility, friendly coworkers, easy access to downtown. Interviews are too easy. Great benefits. Benefits those less fortunate.

**Cons**  
Oppressive leadership, disingenuous management, dishonest business practices. I really want to like this place but the management could use some training. I have witnessed some dishonest business practices going on here. Toxic work environment. Pay is very low. Upper level management is very elitist, discriminating, and oppressive toward other staff.

**Advice to Management**  
Take some training courses to learn how to perform your job better. Many may have landed in their current positions due to the Peter Principle. Do some house cleaning, see who actually contributes to the successful functioning of the company and trim the fat. Just because someone is fun outside of work and makes you laugh does not mean they are competent managers that need to be leading other people. Take a look in the mirror.

**"Employment"**

Former Employee - Client Services in Denver, CO

Doesn't Recommend Negative Outlook

I worked at Colorado Health Network (Less than a year)

**Pros**  
Case Managers are not micro-managed, occasionally drug companies will come in and bring free lunch, relaxed dress code, on a major bus line

**Cons**  
Management is awful. They do not trust their employees with anything - not even tissues. If you want a box of tissues you have to go to upstairs and talk to the them. One person stores them in his office.

They had a big "investigation" because two employees quit because of racism and discrimination within the organization - the "investigation" was "inconclusive". They had a meeting with all of the staff (that was announced 24 hrs prior). Regarding discrimination. It was said that we were diverse "we have one of everything". How can an organization thrive when a top official is racist?

If you are a woman or person of color, it is very hard to move up in the org and be heard. If you are a cute, white male, you will do well in this company.

Turnover is high!

**Advice to Management**  
Maybe start with a little bit of respect (for clients and staff?)

**caddy**

When a person or group of people, usually friends, or sometimes in college sorority sisters, act very immature, don't ever escape the "high school mindset" such as getting caught up in stupid (caddy) drama that is relatively unimportant, are sometimes annoying, lewd, obnoxious, materialistic, drunk, change their morals for the acceptance of others, act like they are "the shit" and above others in status who are not in that group, etc. things of that nature.

*I can't stand that group of peoples' "caddy" attitudes. They are going no where in life until they realize that they need to grow up and stop acting so... "CADDY!"*

Will be leaving this address for the destination of a cave --- seeking to change my United States Citizenship and/or change my name to a secret that the haters will stop hating on me, and/or commit suicide because you all win --- TASK COMPLETE ---- ONE LESS MOTHER FUCKING HIV INFECTED PERSON LIVING ON THE PLANET --- THE HATERS WIN --- TAKE YOUR BOW ---

Google is watching too, with the published status of this cross same platform netSPACE for one of the bad acting Ryan White Care Act Funded Social Service Agencies shown above. They be taking notes!

Google Will have to gone overturned Bankrupt before this space of detail events leaves the planet. This is a permanent scar on the reputation of this conspiracy.
